## 1. Introduction/Background of Project:

Write introduction and background of project and also write if anything happened in the wider socio / political / economic / environmental context during the reporting period that will impact, or has already impacted on the project activities or progress?

KSSC has been implementing the LEP programme in 5 wards of Buddhabhumi municipality and 2 wards of Shivraj Municipality (6 old VDCs) of Kapilvastu; one of the terai district of western development region in Nepal. The district has been facing socio-economic incision, discrimination and political conflicts since long ago. The targeted Municipalities are Buddhabhumi and Shivraj where the Tharu, Madhesi, Muslim, Brahmin and Kshetry- Migrant from hill, Dalits, and Terain dalits are the major habitants of these areas. Literacy rate of Madhesi, Tharus, Dalit, Muslim and women is extremely low in contrast to so-called higher castes. Most of these people are under absolute poverty line. They lack livelihood options and can only earn living from traditional cultivation and agriculture laboring. But agriculture is traditional and low productive. They don't have access to irrigation, improved agriculture inputs such seeds, fertilizer, insecticides and pesticide; improved agriculture services, proper marketing etc. The agriculture is also vulnerable to climate change adverse effects such as drought, floods, incidence of insect pest and diseases, increase in cost of production etc. Many youth are compelled to go to India and Gulf countries for physical work where they get very low wages and work in extremely risky conditions. They are ever unable to break the vicious circle of poverty due to the lack of awareness of rights and duties; also the areas are dominated by small section of elite groups and constantly marginalized for long time. Besides acute poverty and discrimination faced by people, some wards of the selected MPs are flood affected also.

With this reality in the backdrop KSSC started working in these MPs to focusing on organizing and empowering community specially women, promoting sustainable livelihood through focus on agriculture primarily and vulnerability reduction. The programme in the last three years has followed the Livelihood and Empowerment Programme (LEP) framework that leads the community towards resiliency and wellbeing. The programme has reached more than 2537 households through 6 cooperatives in two MPAs and the changes in terms of improvement in the life of target groups.

## 2. Progress against Plan Activities

### Outcome 1: Cooperatives are able to provide financial and business development services

#### Output 1.1: Increased capital of cooperatives

##### 1.1.1 Cooperative promotion and management training:

- **What we did on this activity and also include JPG photo showing our intervention:**

In this activity we selected resource person then we select participants from all 6 cooperatives and conducted 3 days training in one event.

- **Reason for doing this activity :**

To strengthen democratic system in cooperatives. Capacity building to use of accountability tools for institutional development of cooperatives. To aware about cooperatives' principles.

- **How, when and where the activity is completed.**

In this activity we selected resource person then we select participants (Board members, Various subcommittees members and Managers) from all 6 cooperatives and conducted 3 days training in one event. Training held in 4-6 August 2017.

- **What result/changes have been achieved after completion of this activity:**

All 6 cooperatives were made clear work plan to increase share members, share capital and savings as well as conducted their general assembly and Adhibesan in time and reduce bad debts nearly 0 %.

#### **1.2.1.4. Review and sharing business plan and policies among all partners:**

- **What we did on this activity and also include JPG photo showing our intervention:**

In this activity, we Kapilvastu LEP team and Arghakhanchi LEP team jointly organized one day interaction and sharing program about cooperatives policies and business plan at Narpani , Arghakhanchi.

- **Reason for doing this activity :**

Learning and sharing of Kapilvastu and Arghakhanchi cooperatives' best practice and challenges as well as their policies and business plan to built mutual understanding between them. Apply each other best practice in their cooperatives. Built relationship and coordination among them and their cooperatives'.

- **How, when and where the activity is completed.**

KSSC and FOFA team meat several times and final the program date. Each organization's LEP team including cooperatives' manager and management participated in this program in Narpani, Arghakhanchi between Kapilvastu and Arghakhanchi. All the cost of the program is shared by KSSC and FOPA. Program conducted at 27 January 2018.

- **What result/changes have been achieved after completion of this activity:**

Able to know about each other best practice in their cooperatives. Built relationship and coordination among them and their cooperatives'. Learning and sharing of Kapilvastu and Arghakhanchi cooperatives' best practice and challenges as well as their policies and business plan to built mutual understanding between them.

#### **1.2.2 Dialogue and interaction with market actors for backward and forward linkage:**

- **What we did on this activity and also include JPG photo showing our intervention:**

In this activity we conducted an one day interaction program between our farmers', cooperative managers, board members and local level vegetable collector and seller.

- **Reason for doing this activity :**

We conducted this activity to build up linkage and coordination between producers, cooperative and sellers (small businessman) from that linkage and coordination producers can get optimum price for their product in other hand local business man also knew about producer's product, quantity and timing which help them to promote products.

- **How, when and where the activity is completed.**

First we get the information about local level business man, collector as well as our producers and their products. Than we conducted a one day interaction program in program area. Interaction program held in Jan 24 , 2018.

- **What result/changes have been achieved after completion of this activity:**

After completion these activity farmers (producers) and cooperatives able to know about local level small business man more closely they also knew how the small businessman doing their business, how to coordinate each other. From the activity our producers are connected with these following vendors.

Name of vendor	Address	Types of product
Basudev Tharu	Mahendrakot- 4	Vegitables
Chedi Kewat	Chanai-3	Vegitables

### **1.2.3 Linkage building with financial institutions and remittance transfer operators:**

- **What we did on this activity:**

In this event we conducted one day interaction and experience sharing program with Aadharbhut Saving and credit cooperative ltd about how to linkage building with other different financial institution and remittance transfer operators among cooperatives board member, managers and account committee members.

- **Reason for doing this activity :**

To expand business and services of cooperatives. Build linkage and coordination for financial support and sustainable development of cooperatives. To increase profit of cooperatives.

- **How, when and where the activity is completed.**

In this activity we have to select a experienced resource person who have deep knowledge and practice in subject matter. So we selected manager of Synergy saving and credit cooperative a pioneer cooperative in this district. He facilitated all the necessary steps, process and documents for the Linkage building with financial Institutions and Remittance transfer operators. This activity held in program area on Nov 15, 2017.

- **What result/changes have been achieved after completion of this activity:**

All 6 cooperatives are able to know about process, steps and Needed document to build linkage building with financial Institutions and Remittance transfer operators. All 6 cooperatives are committed to do it. Among these 6 cooperatives Daharchandi Saving and credit cooperative started remittance service from this year. 2 cooperatives Diyabati and Guruganga cooperatives submitted their all necessary documents and will be conducted remittance service in 1 st week of April 2018.

## B. Group base mushroom farming and Plastic tunnel

- **What we did on this activity:**

We conducted 12 group based mushroom farming demonstration 2 in each cooperatives.

Plastic tunnel demonstration one in each 6 cooperatives' for selected model farmers.

- **Reason for doing this activity :**

- a. To introduce modern agricultural technique for skill and knowledge transfer on mushroom farming in collective way.
- b. Fund raising for groups' revolving fund.
- c. Motivate others from succeed of group works.
- d. Introducing plastic tunnel as modern agriculture techniques for off-seasonal vegetable farming.

- **How, when and where the activity is completed:**

Potential group and farmer identified for mushroom farming and plastic tunnel. Mushroom farming demonstration is conducted in events in 6 VDCs and plastic tunnel agriculture demonstration is conducted in 6 events in 6 VDCs.

- **What result/changes have been achieved after completion of this activity:**

After got the technical knowledge & new technology all 12 groups are conducted group based mushroom farming and 6 plastic tunnel demonstration introduced now farmers are producing mushrooms and off seasonal vegetable. The details are mentioned below.

#### **4.3. Quarterly Review and learning sharing workshop with WEC facilitator**

- What we did on this activity:**  
In this activity first we informed all 4 cooperatives' manager and Women right activist about review and learning sharing workshop. To know about WEC and Cooperatives progress, learning, Challenges and way forward, we prepare some templates and distributed them. In the event day they present and share their progress learning, challenges and way forward.
- Reason for doing this activity :**  
Experience sharing and learning from each other. To built a common understanding.

- **Beneficiaries details**

Table 1 ( Total beneficiary coverage)

S.N.	Venue	Unit	Target	Achievement	Coverage		
					Women	Men	Total
1.	Imiliya	Event	3	3	6	4	10

Table 2 (Disaggregated beneficiary coverage)

S.N	Venue	Dalit			Janajati			Other			PWD		
		Women	Men	Total	Women	Men	Total	Women	Men	Total	Women	Men	Total
1.	Imiliya	0	0	0	3	3	6	3	1	4	0	0	0

- **What result/changes have been achieved after completion of this activity:**

WRA and managers are able to know how to prepare progress report, what is learning, what is challenge, how to tackle the challenges, above mentioned progress are almost come out from this activity and also able to know way forward.

## 6. Key Challenges and Problems Faced during implementation

- Due to local and National as well as regional level election we face difficulties to conduct our planned activities in timely.
- Still much confusion how the local level will work at Municipality level.
- WEC participants' high expectation.
- Low budget high expectation.
- Lack of qualified human resources.
